Hi Beth,

Attached is the file I sent to SRC containing our picks for updating the phthalate database. The yellow highlights indicate picks for retrieval and the green highlights indicate review articles that should be available but not added to the database. We were in agreement on almost all of these picks. When I had a question mark and you picked it I included it. However I did not include the follow articles that you choose:

Johns (hero id : 3469263) on circulating Vitamin D
Kim (hero id : 3469444) on lower handgrip strength in the elderly
Miao (hero id : 3455686) on using Monte Carlo simulations to assess cancer risks for use in comparison to ambient air limits
Shiue (hero id : 3469215) on sleep health

Please feel free to contact me if you want to discuss this. Since we would both be in the office only on Wednesday next week and time on the contract is ending I did not want to wait another week or more before sending it to SRC.....sorry.

Thanks.
Audrey
